Dots in the sections above are a guide to briefing impact

BT Wholesale is pleased to announce the extension of the Generic Bill Back up format to the following products with immediate effect: SaaS (Software as a Service), IP Exchange & VOIP and BTW Adhoc, with sections 7 - 9 covering this in the updated Generic Bill Back Up User Guide.

The User Guide also now accommodates a correction in section 6.7, plus the new attributes added previously in sections 1.4, 3.3., 3.4, 5.4, 6.3, and 10.5 which are listed in more detail in the Change Log of the updated version.

The last 3 changes listed in the Change Log are future dated changes shown in sections 1.3, 1.4 and 3.3 which will not be seen until at least your October invoice and are covered by the recent product briefing 114-11 dated 7th July.

Please refer to the new user guide attached.

If there are any questions you have, please direct them to your usual billing contact who will be pleased to help you.
