Proposal & survey for the future of BT Wholesales Systems & Process forums for Broadband and Ethernet

The system and process forums for Ethernet and Broadband products have now been in place for 18 months.

These forums exist, in addition to 90 day and 28 day notifications, to explain what changes are being implemented and how they impact you in forthcoming software releases and to review any early life failures.

The webinars are aimed at those interested in product development as well as the functionality and usability changes and are aimed at individuals who are involved with interfacing into BT Wholesale from an operational and process point of view.

As such we would like your help in deciding how we take these forward.

Please take the time to fill in the following short survey about the usefulness and impact of these events.

<http://www2.formwize.com/run/survey3.cfm?idx=505D040A000A001F5A55564A5C0408>

The survey will run from 29th July and end on Fri 26th August and the outcome and decision will be shared by the beginning of Sept

Any questions on this proposal, please contact Carole Haywood-Poole on 01977596769 or email carole.haywood-poole@bt.com
